

# **Own Boat Tuition**

## **Own Boat Tuition up to 10 metres**

As an added benefit you will find that own boat training is generally more cost effective with the obvious added benefit that training on your own craft 100% of what we cover is relevant to your particular needs.

The tuition can take the format of RYA powerboat level 2 spending extra time e.g. on the launch and recovery of your new boat or how to get to grips with the chart plotter that you have on board. We can structure a course for you, addressing the particular areas that you want to become more competent in.

We will also spend time looking at the safety equipment that you have giving you realistic advice on what items to consider buying.

### **Items required for Own Boat Tuition:**

- Preparation for sea Copy of insurance – boat/liability/personal
- Alternative means of propulsion
- Anchor, chain & warp
